Our company has always distinguished itself by having the highest quality standards in our services, as well as the most rigorous cleaning and safety protocols. That's why, in COVID-19 times, we have increased these protocols for action and prevention to ensure the health and well-being of our guests, employees and collaborators in all our establishments.

In order to develop these **protocols and safety and hygiene measures**, we have worked in alliance with **Preverisk Group and Bio 9000**, leading international companies in food safety, hygiene and health. The processes designed follow WHO recommendations and those of other international organizations.

We continuously train and provide information to our teams on necessary updates for their safety. Furthermore, all of our employees have received specific training from **Johnson Diversey**, a leading international company in cleaning and disinfection products and procedures.

After a few months of implementation, **Preverisk Group and Bio 9000** have awarded our open hotels the **Covid-19 Hygiene Response Certificate and Covid Protocol Certification**, respectively. In addition, both companies advise us on how to continually monitor the established protocols.

At H10 Hotels we are committed to the environment and that is why Stay Green was born, a sustainability project with the desire to develop a responsible business model based on three main lines of action: elimination of plastics and reduction of waste, energy efficiency and use of green energy, training and awareness programmes.
