## Safety Program

At H10 Hotels, we want enjoying your holiday to be your only concern. We have therefore defined some action and prevention protocols to ensure the health and well-being of our guests, employees and collaborators in all our establishments.

All the designed protocols and **safety and hygiene measures** follow WHO recommendations and have been developed in conjunction with the **Preverisk Group**, a leading international company in food safety, hygiene and health, to guarantee their best implementation and inspire in our guests the highest possible confidence.

Furthermore, to ensure optimum efficiency in cleaning processes, all of our employees have received specific training from **Johnson Diversey**, a leading international company in cleaning and disinfection procedures.

At H10 Hotels, we are committed to the environment, which is why **Stay Green** was created. This sustainability project aims to develop a responsible business model based on three primary lines of action: the elimination of plastics and waste reduction, energy efficiency and the use of green energy, and training and awareness programmes for both our employees and our guests.
